## **Convergence of Contemporary Art, Visual Culture, and**

The Psychology of Contemporary Art looks at a broad range of contemporary artworks in order to show how meaning creation involves a dynamic complexity of different thoughts and feelings. This, in effect, means relying on a variety of explanatory models and theories about cognition, embodiment and situatedness, sometimes integrating or mod-

## **Convergence: Contemporary Art from India and the Diaspora**

Â». Introduction Contemporary art is the term used for art of the present day. Usually the artists are alive and still making work. Contemporary art is often about ideas and concerns, rather than solely the aesthetic (the look of the work). Artists try different ways of experimenting with ideas and materials.

This article shows, perhaps surprisingly for many, that religion and art, while they overlap at certain points, do not easily accommodate each other. The relationship spans a continuum, the oppositional end of which would include Islam, which prohibits all forms of representational art; types of Buddhism, including such modern movements as Korean Won Buddhism and the Thai Santi Asoke movement ...
