A steady-state economy is an economy made up of a constant stock of physical wealth (capital) and a constant population size. In effect, such an economy does not grow in the course of time. The term usually refers to the national economy of a particular country, but it is also applicable to the economic system of a city, a region, or the entire world.

Although we appreciate your enthusiasm, we must request that you do not publish any scripts or solutions for systems within our labs. The reasoning behind this is simple: if a future, or current, student should come across your notes and scripts in the course of their research, they would likely use them rather than finding solutions on their own, thereby missing out on the educational process ...
