situational survival 10 skills pdf

Situational awareness or situation awareness (SA) is the perception of environmental elements and events with respect to time or space, the comprehension of their meaning, and the projection of their future status.. Situation awareness has been recognized as a critical, yet often elusive, foundation for successful decision-making across a broad range of situations, including aviation, air ...

Situation awareness - Wikipedia

Leadership is both a research area and a practical skill encompassing the ability of an individual or organization to "lead" or guide other individuals, teams, or entire organizations. Specialist literature debates various viewpoints, contrasting Eastern and Western approaches to leadership, and also (within the West) United States versus European approaches.
