Soft Systems Methodology - Jesper Simonsen

In this course, you will learn how to apply a core business analysis framework as well as participate in interactive workshops to improve your analytical competencies. You will conduct a business needs analysis to elicit stakeholder requirements, apply business analysis techniques to identify key problems and potential opportunities in your enterprise and create effective requirements and ...

Business Analysis Introduction: Defining Successful Projects

Liberating Structures are immeasurably practical. Our world is increasingly complex, interdependent, and culturally diverse. Many of our most pressing challenges cut across geographic, cultural, and technical boundaries.

Liberating Structures - Introduction

Transactional analysis (TA) is a psychoanalytic theory and method of therapy wherein social transactions are analyzed to determine the ego state of the patient (whether parent-like, child-like, or adult-like) as a basis for understanding behavior. In transactional analysis, the patient is taught to alter the ego state as a way to solve emotional problems.
