Occupational safety and health (OSH), also commonly referred to as occupational health and safety (OHS), occupational health, or workplace health and safety (WHS), is a multidisciplinary field concerned with the safety, health, and welfare of people at work. These terms also refer to the goals of this field, so their use in the sense of this article was originally an abbreviation of ...

Introduction The ability to communicate ideas effectively is increasingly recognized as critical to the success of the healthcare system. Effective communication is required not only for successful interactions between individuals and their health care providers (1) but also between health care providers themselves.
