It was originally developed by studying the so-called borderline cases of mental diseases; that is to say, Professor Freud started with cases of so-called "nervousness" which the average psychiatrist of his time put under such headings as neurasthenia, hysteria, obsessions, and phobias.

A function $f : A \rightarrow B$ is a subset f of $A \times B$ such that for each $x \in A$, there is a unique $(x,y) \in f$. We then write $f(x)=y$. Sometimes the set f is called the graph of the function rather than the function itself. The set A is called the domain of f (and sometimes confusingly denoted $D(f)$).

Association Analysis: Basic Concepts and Algorithms Many business enterprises accumulate large quantities of data from their day-to-day operations. For example, huge amounts of customer purchase data are collected daily at the checkout counters of grocery stores. Table 6.1 illustrates an example of such data, commonly known as market basket transactions.

Density of the Rationals and Irrationals Definition 1.1.5 A set D is dense in the reals if every open interval (a,b) contains a member of D . Theorem 1.1.6 The rational numbers are dense in the reals that is, if a and b are real numbers with $a < b$; there is a rational number p such that $a < p < b$.

A partitional clustering is simply a division of the set of data objects into non-overlapping subsets (clusters) such that each data object is in exactly one subset.

This guide is designed to acquaint students with the basic principles and methods of cladistic analysis. The first part briefly reviews basic cladistic methods and terminology. The remaining chapters describe how to diagnose cladograms, carry out character analysis, and deal with multiple trees. Each of these topics has worked examples.

1 Basic complex analysis We begin with an overview of basic facts about the complex plane and analytic functions. Some notation. The complex numbers will be denoted C . We let D and C_b denote the unit disk $|z| < 1$, the upper half plane $\text{Im}(z) > 0$, and the Riemann sphere $C \cup \{\infty\}$.
