There's more to the conversation. You can either use iTunes (which you've already said that you don't want to do) and sync/copy them that way, use a PDF app on the iPad that supports wifi transfer, or use one of the other methods that I mentioned - you can't drag-and-drop in, for example, Explorer on a PC or Finder on a Mac to a non-jailbroken iPad.

A PDF app's interface can frequently appear daunting to the average user, thanks in part to the sheer number of annotation options developers try to shove inside of them, but PDF Viewer smartly simplifies this process. Taking a page from Apple's own iWork suite, the app provides a series of nested views depending on which feature you're using.
