

### **upstream downstream issues in pdf**

The oil and gas industry is usually divided into three major sectors: upstream (or exploration and production-E&P), midstream and downstream. The upstream sector includes searching for potential underground or underwater crude oil and natural gas fields, drilling exploratory wells, and subsequently drilling and operating the wells that recover and bring the crude oil or raw natural gas to the ...

Data Over Cable Service Interface Specification (DOCSIS / Ę d Ę k s Ę s /) is an international telecommunications standard that permits the addition of high-bandwidth data transfer to an existing cable TV (CATV) system. It is employed by many cable television operators to provide Internet access (see cable Internet) over their existing hybrid fiber-coaxial (HFC) infrastructure.
