developerWorks wikis allow groups of people to jointly create and maintain content through contribution and collaboration. Wikis apply the wisdom of crowds to generating information for users interested in a particular subject. You can search all wikis, start a wiki, and view the wikis you own, the wikis you interact with as an editor or reader, and the wikis you follow.

Visual agnosia is an impairment in recognition of visually presented objects. It is not due to a deficit in vision (acuity, visual field, and scanning), language, memory, or intellect. While cortical blindness results from lesions to primary visual cortex, visual agnosia is often due to damage to more anterior cortex such as the posterior occipital and/or temporal lobe(s) in the brain. [2]

Visual agnosia - Wikipedia

List of initialisms, acronyms ("words made from parts of other words, pronounceable"), and other abbreviations used by the government and the military of the United States. Note that this list is intended to be specific to the United States government and military—other nations will have their own acronyms.

List of U.S. government and military acronyms - Wikipedia

Hello Wi-Fi Peeps! The question comes up from time to time about using a Mac Book Pro OSX for real-time video. While it can be done and works well most of the time in a stationary fashion you need to be aware of what limitations you should expect, especially if you are using enterprise grade security.

In manufacturing, maintenance, and machine shop operations, tools, dies, and bits are among the most likely targets for pilferage. Tools fit the criteria for theft we discuss in our white paper, Reducing Warehouse & Dock Area Pilferage (PDF, 1.3MB, opens in a new tab): items that are a combination of concealable, removable, available, valuable, or enjoyable are prime candidates for theft.
