The issue I have with this article is it is making food intake all about weight which it isn't. Your body is not going to get the same nutrients it gets from healthy food as it will from pizza and ice cream and stuff like that as long as you stick to a certain amount of carbs calories fats or whatever.

Carbohydrates, and the role they play in a healthy diet, are one of the most hotly contested nutritional debates in the world, both in conventional and ancestral health circles. One one side, you've got folks who say that carbohydrates are nonessential and increase your risk for diseases such as diabetes, cancer, and neurological disorders.
